Mission

The mission of SDDCTEA is to provide the Department of Defense (DOD) with the research, engineering, and analytical expertise to improve the deployability of U.S. Armed Forces, the transportability of military equipment, the infrastructure of the Defense Transportation System, and the management and execution of the Department of Defense's transportation programs for National Defense.

SDDCTEA administers the Highways for National Defense (HND) Program. This program ensures our nation's public highway system serves the needs of our military forces.

MILITARY SURFACE DEPLOYMENT AND DISTRIBUTION COMMAND FUNCTIONAL AREA:

HIGHWAYS FOR NATIONAL DEFENSE

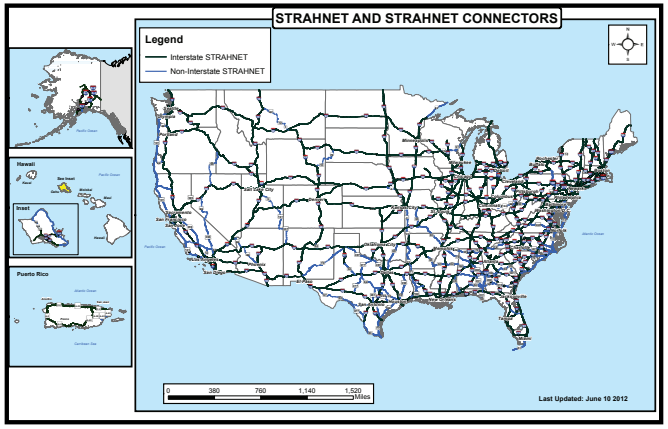
Highways for National Defense

Integrating Defense Needs into the Public Highway System

Highway Systems

Identify and Integrate Defense Highway Needs into Public Highway Programs

- Develop and update the Strategic Highway Network Corridor (STRAHNET) and STRAHNET Connectors at:
  http://www2.tea.army.mil/DODProg/HND/Systems.htm
- Ensure STRAHNET & STRAHNET Connectors continued incorporation into the National Highway System
- Serve as DOD's liaison to the Federal Highway Administration (FHWA) & State Departments of Transportation
- Coordinate with FHWA to ensure existence of standard vertical clearance routes for movement of oversize/overweight military vehicles
- Serve as focal point for the Federal Lands Access Program & the Emergency Relief for Federally Owned Roads (ERFO) Program



Enhance DOD's Use of Public Highways

- Serve as proponent for Appendix F, Permits for Military Movements on United States Public Highways and Army Convoy Operations and Procedures, Part III, Mobility Section, Defense Transportation Regulation (DOD 4500.9-R)
- Coordinate with FHWA and States to enhance defense movement capabilities on public highways through agreements, regulation, or legislation
- Publish Directory of Highway Permit and Movement Control Officials at:
  http://www2.tea.army.mil/DODProg/HND/Systems.htm
- Coordinate Military emergency preparedness issues with FHWA, States, and other emergency agencies
- Conduct engineering analyses to enhance the movement capabilities of unique military vehicles
- Facilitate coordination between the military and State authorities to ensure efficient military use of public highways during defense emergencies
- Coordinate military movement issues with:
  - FHWA
  - AASHTO
  - Military services/installations
  - USTRANSCOM
  - State DOTs
